Introduction

This guide contains the instructions for administering the ACT® Aspire® Periodic Interim and Classroom assessments. It is important that all members of testing staff become familiar with the policies and procedures in this guide before test day. This will ensure that all examinees will receive the same testing experience.

Additional training and test administration resources can be found in the “Contact Information and Resources,” inside front cover.

General Policies

Policies and Procedures

This guide provides direction in administering ACT Aspire Periodic tests. It is important to follow these instructions to successfully measure examinees' academic skills. All testing personnel, including room supervisors and other testing staff, are required to read the materials provided by ACT Aspire.

Standardized Procedures

Throughout this manual, there are detailed directions for selecting facilities and staff, ensuring test security, and administering tests in a standardized manner. All testing staff are required to read the materials provided by ACT. Adherence to these standardized procedures is mandatory.

To ensure a secure and valid testing experience, understand that, among other things, the following actions by you or any other individual violate ACT Aspire policies and procedures:

- Accessing or obtaining a test booklet or test questions prior to the test for any reason*
- Photocopying, making an electronic copy, or keeping a personal copy of the test or of any test items*
- Taking notes about test questions or any paraphrase of test questions to aid in preparing examinees for testing
- Aiding or assisting an examinee with a response or answer to a secure test item, including providing formulas
- Rephrasing test questions for examinees
- Creating an answer key or “crib sheet” of answers to test questions
- Editing or changing examinee answers after completion of the test, with or without the examinee's permission
- Allowing examinees to test in an unsupervised setting
- Leaving test materials in an unsecured place or unattended
- Failing to properly report and document incidents of prohibited behavior involving examinees, staff, or others

- Allowing examinees to test longer than the permitted time
- Failing to return and account for all testing materials after the testing session has ended

**An exception is provided for examinees who require accessibility supports. See the ACT Aspire Accessibility User's Guide: Interim Testing.*

Test Security

To ensure the integrity of your examinees' ACT Aspire results, testing personnel must protect the security of test materials as described in this manual. ACT Aspire materials are copyrighted by ACT or its licensors and cannot be duplicated, copied, resold, or redistributed for commercial or other use. ACT Aspire assessments must be administered by school or district personnel.

Investigations

In cases of suspected or documented irregularities, all testing staff are obligated to cooperate fully with ACT in subsequent investigations and respond to requests for information in a timely manner.

Equal Treatment

All staff are required to administer and supervise the test in a nondiscriminatory manner and in accordance with all applicable laws, including the Americans with Disabilities Act (ADA).

Fair Testing Practices

ACT endorses the *Code of Fair Testing Practices in Education* and the *Code of Professional Responsibilities in Educational Measurement*, which guide the conduct of those involved in educational testing. ACT is committed to ensuring that each of its testing programs upholds the guidelines in each Code. You may locate copies of these Codes through the following organizations:

- *Code of Fair Testing Practices in Education*: American Psychological Association (www.apa.org)
- *Code of Professional Responsibilities in Educational Measurement*: National Council on Measurement in Education (www.ncme.org)

ACT Privacy Policy

Examinee scores and other information provided through the online testing system are governed by the *ACT Privacy Policy* (see "Contact Information and Resources," inside front cover).

Guidelines for Administering the Tests

Calculators

Use of calculators varies between Interim and Classroom testing.

- **Interim:** Examinees taking grades 3–5 mathematics subject tests **cannot** use a calculator. Examinees taking grades 6–10 mathematics may use an authorized calculator.
- **Classroom:** Examinees may use an authorized calculator for all mathematics subject tests, no matter the grade.

TestNav includes a calculator tool for all applicable mathematics tests. The test site may also provide calculators or each examinee may bring an authorized calculator. For more information, see the *ACT Calculator Policy*.

Note: All problems can be solved without a calculator.

Scratch Paper

Examinees may use scratch paper if they request it. For each blank sheet, instruct examinees to write the following information on the top of the sheet:

- First and last name
- School name
- Test subject
- School grade

Room supervisors will collect the scratch paper after testing and return the sheets to the test coordinator with the other testing materials.

Note: Examinees testing online may use their student authorization testing ticket as scratch paper. If they do so, there is no need to write the information listed above.

Test Format

All subject tests are composed of selected-response (multiple-choice) questions. The number of questions varies according to whether the Interim or Classroom assessment is selected.

Subject tests may be administered as a battery or may be spread out during the testing year. The test coordinator will inform testing staff whether they will be administering the entire battery of subject tests in one session or if they will be administering one or more individual subject tests.

If two or more tests will be administered in a single sitting, you will need to take administrative time of 5–10 minutes between each test to collect materials for the test just completed and to distribute materials and go over instructions for the next test. In scheduling multiple tests or the whole battery, keep in mind the administrative time for each test. A single subject test should be completed within one session. Examinees should not be allowed to have access to test materials between testing sessions.

The estimated timing of each subject test varies by whether the Interim or Classroom version is being administered: approximately **45 minutes** for each Interim subject test, and **15–20 minutes** for each Classroom subject test. These times are provided as a guideline for planning purposes. A timer is not used in any Interim or Classroom test session.

Instructions to Examinees Prior to Test Day

It is up to your school administration and faculty to determine what to tell examinees prior to testing. You may want to inform examinees that, on the designated date, they will be taking a test to measure what they know about a certain subject—even if they are not currently in a corresponding class. We also ask that you take the opportunity to encourage examinees to do their best on the tests.

Sample Test Questions

ACT Aspire Exemplar Items are accessible through the ACT Aspire resource web page. Visit this page for information on how to gain access to the Exemplar Test Question booklets. Each Booklet (one for each subject and grade) describes reporting categories, standards, depth-of-knowledge levels, and correct responses.

Selecting and Training Testing Staff

It is the responsibility of the test coordinator to select and train all room supervisors and other testing staff.

Room Supervisors

Typically, teachers will administer the tests to examinees during regular class periods.

The test coordinator should be sure that everyone involved in test administration has a copy of this guide and is familiar with its contents. A room supervisor is needed in each test room to read directions and monitor examinees.

Before test day, all testing personnel should read all of the testing instructions carefully, particularly the verbal instructions, which will be read aloud to examinees on test day. It is important that testing personnel be familiar with these instructions.

Room Supervisor Qualifications

The test coordinator should confirm that the room supervisor(s) meet all of the following criteria:

- proficient in English
- experienced in testing and classroom management
- a staff member of the institution or district where the test administration will take place

To protect both examinees and the room supervisor from questions of possible conflict of interest, the following conditions should also be met. The room supervisor should:

- not be a relative or guardian of an examinee in the assigned room
- not be a private consultant or individual tutor whose fees are paid by an examinee or examinee's family

Room Supervisor Responsibilities

Specific responsibilities are:

- Read and thoroughly understand the policies, procedures, and instructions in this guide and other training materials provided.
- Supervise a test room.
- Start a test session.
- Help examinees sign in to the online testing platform.
- Read test instructions.
- Move around the test room during testing to be sure examinees are working on the correct test and to observe examinee behavior.
- Monitor the online testing platform as needed.
- Collect and account for all student authorization testing tickets and scratch paper before dismissing examinees.
- Ensure examinees have stopped testing and have correctly signed out of the online testing platform.
- Complete documentation of any irregularities.

Staff Training Sessions

ACT Aspire recommends that the test coordinator conduct a training session prior to testing for all testing staff to discuss the testing guidelines and organizational details of testing your examinees, including:

1. Security and Materials
 - A. Describe how to use the administration platform.
 - B. Emphasize that room supervisors must collect used and unused scratch paper and student authorization testing tickets after testing.
 - C. Emphasize that staff members should never leave a test room unattended.
 - D. Emphasize that test sessions must be started in the administration platform before examinees can sign in to the test.
2. Activities Before the Test
 - A. Have room supervisors locate the verbal instructions for the appropriate subject and grade level for their test room and clearly mark those instructions in their manuals.

3. Test Day

- A. Discuss when and where staff members are to report on test day.
- B. Determine how to handle late arrivals.
- C. Stress that verbal instructions for the tests must be read verbatim.
- D. Stress that student authorization testing tickets should not be distributed prior to admitting examinees.
- E. Emphasize that staff members should not read (other than this guide), correct papers, or do anything not related to administering the test. Their attention should be focused on the examinees.
- F. Note that during the test, staff members should move quietly around the room, be available to respond to examinees' questions, assist in the case of illness, check that examinees are working on the correct test, and assist them with technical or system navigation issues.
- G. Discuss procedures for an examinee leaving during the test to go to the bathroom.
- H. Discuss what actions to take in the case of a group irregularity (e.g., a power outage) or an emergency.
- I. Discuss potential individual irregularities and actions to take.

4. After the Test

- A. Emphasize that room supervisors must collect all used and unused scratch paper and student authorization testing tickets and return them to the test coordinator.
- B. Emphasize that all test sessions must be stopped in the administration platform after all examinees assigned to the test session have completed testing. If an examinee is assigned to a test session but is not able to test, remove that examinee from the test session. Mark all tests that have been started, but not finished, as complete.

Bathroom Breaks

Examinees may be allowed to go to the bathroom during the timed portion of the tests. **Follow local policy regarding timing for bathroom breaks.** Only one examinee may leave the testing room at a time without being accompanied by testing staff. "Direct Examinees to Log Out of TestNav," page 23, provides instructions for signing out of TestNav, which stops the timer until the examinee signs back in after the break.

Collect the examinee's authorization testing ticket and any scratch paper before the examinee leaves the room; return the ticket and scratch paper when the examinee returns. If the examinee signed out of TestNav, follow instructions under "Resume an Interrupted Test," page 22, after the examinee's return. Such absences do not need to be recorded in the irregularity reporting tool in the administration platform. **Do not leave examinees unsupervised in a test room at any time.**

Electronic Devices

Examinees are not allowed to have cell phones or any electronic communication devices on their person. Preferably, they should not bring them into the test room; if they do, these devices are to be turned off and placed under their desks. A warning to examinees to **not** set alarms is included in the verbal instructions.

Note: Alarms can distract examinees. Make sure staff alarms are off as well.

Examinee Questions During Testing

Specific instructions about guessing are included in the verbal instructions for each test. If examinees ask you about guessing, refer them to these instructions or repeat the appropriate section for the examinee. Do not comment on or add to the printed directions in any way. You can answer questions about the general test instructions before testing starts. (See the step in the “Verbal Instructions” section that asks examinees if they have any questions.)

Questions about Items

Do not answer questions regarding individual test items. You may respond to such questions by providing the appropriate administration directions or suggestions like “Do the best you can.”

If examinees note typographical errors or ambiguities in particular test items, instruct them to do the best that they can and then include an explanation of their questions or comments using the irregularity reporting tool in the administration platform.

Prohibited Behavior

The following behaviors are prohibited during administration of the tests:

- Looking at someone else’s computer screen or scratch paper
- Giving or receiving assistance
- Disturbing other examinees
- Using notes or unauthorized testing aids
- Using a calculator on any test other than the Interim Mathematics Grades 6–Early High School (Grades 9–10) and all classroom mathematics tests
- Sharing a calculator with another examinee
- Using any device to share or exchange information at any time during the tests, during break, or after testing (**All** electronic communication devices, including cell phones, must be turned off from the time the examinee is admitted to test until dismissal after testing concludes.)
- Attempting to remove or send test questions or answers from the test room by any means
- Exhibiting confrontational, threatening, or unruly behavior
- Creating a disturbance or allowing an alarm or phone to sound in the test room

If you SUSPECT an examinee is engaged in this activity, discreetly warn the examinee that the activity is prohibited, direct the examinee to resume testing, and continue to observe the examinee closely. Document your suspicions and actions using the irregularity reporting tool in the administration platform.

If you OBSERVE this behavior, manually mark the examinee’s test complete. Collect any scratch paper and dismiss the examinee from the room. Enter a note using the irregularity reporting tool in the administration platform.

Reporting Irregularities in Test Administration

The irregularity reporting tool in the administration platform is intended for use primarily by school personnel to record any test administration irregularities that may affect examinee scores or the analysis of ACT Aspire results. Testing personnel should use the tool to report any of the following irregularities occurring within the room:

- An examinee engages in the prohibited behavior outlined above.
- An examinee becomes ill or leaves the room during testing.
- An examinee fails to follow instructions (responds to questions randomly, obviously does not read questions prior to responding, or refuses to respond to questions).
- A general disturbance or distraction occurs that could affect one or more examinees' results.
- An examinee questions the accuracy or validity of an item.
- An examinee has a technical issue that interrupts testing.
- For any instances where examinees can resume testing after illness, a technical issue, or a general disturbance.

The irregularities in the **Environment** category include external factors that may affect examinee testing. These include things like outside noises or hot/cold room temperatures; and occurrences like power outages, severe weather, or emergency evacuations.

The **Examinee** category of irregularities includes examinee behaviors that may affect their performance or the performance of other examinees. These include the exhibition of prohibited behavior described previously, examinee complaints about testing conditions or challenges of test items, arriving late for testing, or not showing up.

The **Staff** category includes actions testing staff may engage in that affect testing. These include failure to follow testing procedures by not reading the verbal instructions; arriving late or not showing up for testing; or other inappropriate behavior like engaging in personal communication via other staff, telephone, or text during testing.

The **Technical** category pertains to the performance of the online testing platform and includes system failure, slowness, or freezing; difficulties launching the test or with examinees using the testing platform; and other system issues like problems with using a keyboard, mouse, monitor, or other related hardware.

If you have questions about how to categorize a particular irregularity, call ACT Aspire Customer Care.

Also notify your test coordinator of any irregularities after testing.

Accessibility and Accommodations for ACT Aspire Periodic Assessments

See the corresponding *ACT Aspire Accessibility Guide* for information about accessibility and accommodations.

Online Testing Instructions

Preparing for ACT Aspire Periodic Assessments

To prepare **your school** for online testing for ACT Aspire, you will need to:

- Ensure your devices used for testing meet the minimum supported operating system (OS) and OS version using App Check (see the Technology section of the ACT Aspire resource web page). After it checks the OS, App Check confirms that the device or computer is configured to launch TestNav (the online testing system) in kiosk mode. You must run App Check on every device in your testing environment.
- Ensure that your room and seating arrangements meet the test room requirements (see *ACT Aspire Test Coordinator Manual*).
- Ensure all examinee information has been entered into an online test session in the administration platform.
- Train staff on the use of the administration platform and online testing platform.

To prepare **your examinees** for online testing, refer them to the Student Sandbox at tn.actaspire.org/client.

Note: The TestNav app must be downloaded on devices and computers before this url will work for examinees.

Sandbox login information can be found in the Exemplar Items section of the ACT Aspire resource web page. While the Student Sandbox presents test questions as they are presented in the format of the live test, example questions are not intended to be a practice test. Their purpose is to familiarize examinees with the functions and presentation of test items in TestNav to prevent delays or mistakes due to an unfamiliar interface.

Technical Requirements

Equipment used for online testing must meet the minimum system hardware and software requirements. Updates of the latest hardware and software requirements can be found at <https://support.assessment.pearson.com/display/PAsup/System+Requirements>.

Note: Android is not supported.

The Administration and Online Testing Platforms

Your school testing staff will need to use the online testing platform to enable examinee testing, using the following components:

- PearsonAccess^{next} (ACT Aspire administration platform): This is where you will perform your administrative and proctoring tasks.
- TestNav app (online testing platform): This is where examinees will sign in to take tests.

You may want to add the administration platform website to your browser favorites for easy access by staff.

The administrator contact from the organization file will be invited to the administration platform by ACT. Additional users can be invited to the system by the administrator contact using the user import file. Invitation emails will be sent to the contacts listed in the user import file. These email invitations will allow users to create and print their own student authorization testing tickets. Refer to the User Role Matrix on the ACT Aspire resource web page for detailed access information by role.

Materials Provided by the School

Schools are required to provide a fair and secure testing environment (see “Desirable Testing Conditions,” page 12). In addition to environment, testing sites will provide the following items for each test room:

Table 1. Materials Provided by the School

Item	Description
Pencils	<p>You may instruct examinees ahead of time to bring pencils, but it is generally advisable to provide a supply of pencils in each room.</p> <ul style="list-style-type: none"> • Paper testing examinees may respond in the test booklets, but all answers will need to be entered into the online testing system. • Online testing does not require pencils, but examinees may use one with their scratch paper.
Pencil sharpener	Provide a pencil sharpener in each test room.
Scratch paper	<p>Examinees may use scratch paper if they request it. For each blank sheet, instruct examinees to write the following information on the top of the sheet:</p> <ul style="list-style-type: none"> • First and last name • School name • Test subject • School grade <p>Room supervisors will collect the scratch paper after testing and return the sheets to the test coordinator with the other testing materials.</p> <p><i>Note: Examinees testing online may use their student authorization testing ticket as scratch paper. If they do so, there is no need to write the information listed above.</i></p> <p>At the end of testing, securely destroy the scratch paper or securely retain it for one year per local guidelines.</p>
Calculators	The school may choose to provide calculators to examinees or the examinees may bring their own calculator to test. See “Calculator Policy,” inside front cover.

Desirable Testing Conditions

Most room supervisors will administer the tests to their examinees in the school's computer lab during regular class periods. You may test all examinees in a given grade and subject at the same time if facilities and schedules permit. To minimize distractions during testing, all examinees in a room must take the same subject test.

Rooms used for testing should offer ample seating, good lighting, comfortable temperatures, a quiet atmosphere, and freedom from distraction. Adhering to the following guidelines will help minimize the possibility that examinees will look at each other's work.

Online Testing Guidelines

Because of the nature of online testing and typical computer lab arrangements, the following guidelines are recommended:

- If computers can be moved, arrange them in such a way that examinees will not be able to see another examinee's work (computer screen or scratch paper).
- If computers cannot be moved, take steps to seat examinees in such a way that they cannot see another examinee's work. U-shaped seating arrangements are acceptable if they meet this guideline.
- If available, place privacy guards on the sides of computer monitors to provide additional privacy.
- TestNav should be the only application running on the computer during testing. If an examinee has exited the test, do not restart or resume the test for the examinee.
- Testing staff should move around the room regularly. This will discourage examinees from any prohibited behaviors.

Test Administration Procedures

Before examinees are admitted to the test room, the following setup activities should be completed. Instructions for completing these tasks and the successful starting and running of test sessions will be provided by your test coordinator.

- All computers to be used for testing should be turned on, and the TestNav app should be launched so the examinee sign-in screen is visible. The TestNav app can be downloaded at <http://download.testnav.com/>.
 1. Open an approved browser and launch PearsonAccess^{next} at <https://aspire.act.org>.
 2. Launch the TestNav application on all test computers.

Note: If the room is being used for text-to-speech examinees, the room supervisor should ensure that the volume on the testing computers is turned on.
- If any examinees are testing with accessibility supports, know and mark in advance those accessibility supports that will be administered. If you will be administering an audio test, be sure to have examinees adjust the volume **before** signing in.
- If your room is administering a mathematics test for grades 6–Early High School (grades 9–10), check examinee calculators prior to testing to verify they meet the requirements of the ACT Aspire calculator policy. A list of permitted and prohibited calculator models can be found on the ACT Aspire resource web page. A calculator is embedded in TestNav for grades where use of a calculator is allowed.

- Examinees should not be allowed to do other work or look at any materials if they finish the test early.
- Set up the test room. See *ACT Aspire Test Coordinator Manual*.

Administration Platform Setup

Import and Export of Data Files

Large amounts of data can be imported or exported and re-imported to updated existing records or add new records. Data files that can be imported for administration setup include the Student Registration Import and the Personal Needs Profile. The Student Registration Import file allows you to create examinee records, register examinees, and assign tests, groups, and test sessions if desired. See the PearsonAccess^{next} User Guide for instructions and the ACT Aspire web page for detailed file layouts.

Before the test, read aloud all instructions enclosed in the shaded boxes; do not depart from this text. Where a series of dots appears, pause to let examinees follow the instructions.

When all examinees have been admitted and seated and everyone has a pencil or pen and scratch paper, greet the examinees and say:

You are about to take a test related to your coursework. You should try your best and do your own work. It is best to answer every question even if you are unsure of your answer. Please clear your desks of everything except your pencils or pens...

I'm going to hand out your Student Testing Ticket and scratch paper now. If you need additional scratch paper during testing, raise your hand and I will come to you. These materials must be returned before you are dismissed.

Hand examinees their student authorization testing tickets individually. Do not allow examinees to pass student authorization testing tickets back or across aisles. Keep an exact count of the number of student authorization testing tickets distributed.

When everyone has the correct student authorization testing ticket, say:

Please look at the Student Testing Tickets that I (we) just passed out. The top of the Student Testing Ticket should list your name and student ID...the session name and your date of birth should be listed below your name and student ID. [Name and grade of the subject test] should be below your date of birth.

When you have verified that all examinees have the correct student authorization testing ticket, say:

Find the username and password printed on your Student Testing Ticket and type them into the boxes on your screen. After you type this information into the boxes, click the **Sign In** button. Do not click on anything on this screen until I tell you to. Raise your hand if you need help signing in or if your name and [name of the subject test] are not listed on your screen...

Testing staff should move around the room to confirm that examinees have signed in to the correct test and help those examinees who are having difficulty signing in.

After everyone has signed in to the correct test, say:

We are almost ready to begin testing. The use of notes or dictionaries, any electronic device, or an alarm on a wristwatch or cell phone is not permitted. Scratch work should be done on the scratch paper I (we) handed out. Raise your hand if you have any questions about the test instructions...

Answer any examinee questions about the general test instructions and then say:

Please read the test directions on your screen silently as I read them aloud...

Then say:

After Each Test Session

After testing, it is the room supervisor's or test coordinator's responsibility to sign in to the administration platform and check the status of each examinee's test in the session just concluded. If necessary, the room supervisor or test coordinator can submit a test on behalf of an examinee if the examinee did not do so.

Take the following steps as the test session concludes:

1. Collect all student authorization testing tickets and scratch paper from examinees before allowing them to leave the test room.
2. Finish recording and submitting any testing irregularities that occurred during the testing session using the irregularity reporting tool on the administration platform.
3. Stop the test session. If an examinee is assigned to a test session but is not able to test, remove that examinee from the test session. Mark all tests that have been started, but not finished, as complete.
4. Ensure that all computers used for testing are signed out of TestNav.
5. If part of your local procedures, return all student authorization testing tickets and scratch paper to the test coordinator, who may file or securely destroy this material.
